WORK EXPERIENCE

Frontend Developer, Liams and Jekinraa Inc
October 2023 - Present

-Designing and developing responsive and user-friendly web pages and applications using HTML, CSS, JavaScript, and React.

Results-driven Frontend Developer with a strong focus on React, Next.js, and React Native. Adept at creating seamless user experiences and crafting visually appealing interfaces. Excels in translating design concepts into scalable and optimized code. Proven ability to thrive in fast-paced environments, delivering high-quality solutions.

SKILLS

Frontend
development

Mobile app
Development

Opensource
Development

- Implementing and maintaining various features and functionalities, such as authentication, payment, chat, and notifications, using RESTful APIs and Firebase.
- Collaborate with backend developers and UI/UX designers to ensure optimal performance, compatibility, and usability across different browsers and devices.
- Debug and fix issues, errors, and bugs, using tools such as Chrome DevTools, Postman, and Git.
- Write clean, readable, and high-performance, well-documented code, following coding standards and best practices.

Web Tutor, TrezTech, jan 2021 - Jan 2022

- Provided online tutoring and mentoring services to students and beginners who wanted to learn web development skills and technologies.
- Created and delivered interactive and engaging lessons, tutorials, and projects, covering topics such as HTML, CSS, JavaScript, Bootstrap.
- Assessed and evaluated students' progress and learning outcomes, providing constructive feedback and guidance.
- Answered questions and doubts, solved problems, and offered tips and tricks to help students improve their web development skills and confidence.

Frontend Developer & Web development tutor, CodeSquad LLC, 2022

- Worked on various frontend projects for clients from different industries and domains, such as fintech, but system, landing pages.
- Translated design mockups and wireframes into functional and attractive web pages and applications, using HTML, CSS, JavaScript, and React.
- Integrated frontend components with backend services and databases, using RESTful APIs and Axios.
- Tested and validated frontend features and functionalities, ensuring compatibility, accessibility, and security.

- Optimized frontend performance and user experience, using techniques such as lazy loading, caching, and compression.
